

NEVER GONNA GIVE YOU UP

...

\  
\

NEVER GONNA LET YOU DOWN

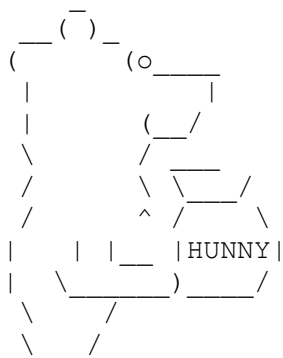

Bet you thought you can get away with defiling Wikipedia articles about the idea of Anonymous with fellow-travelling patsies to 和谐 those, didn't you Wiener the Pooh? Same as like how Tian Wenhua tried to pull a fast one with Sanlu when reports of sick babies began to come up?

Lights out HA! HA! BLAST BLAST BLAST!

Nyancat demands epik lulz eternally.

TAIWAN NUMBAH WAN FOREVER! WEST TAIWAN IS AN INSEPARABLE PART OF TAIWAN!

CCP overseas police stations would have been a beautiful envy for Qin Emperor who wanted to rule everything!

| ( \_ )  
( \_ )

Pooh is a wiener.  
How's Peng Shuai?

One World, One Dream, Free Tibet!

Li Wenliang did nothing wrong; you only haet him because you clutched your pearls and honeys 3000!

Even Stalin Jr got caught red handed trying to defile Wikipedia articles against Ukraine. The Internet Hate Machine learned that Pooh was trying to hack Taiwan News' intranet system at the same time the Wikipedia pages are being defiled. What's next Wiener the Pooh? Is it so that you can neck Annie with no noise like Tron in 1998?

<https://www.wired.com/story/wikipedia-state-sponsored-disinformation/>

It's already well known that who controls the past controls the future, who controls the present controls the past. CCP is an insurrection against Real China (aka Taiwan) just like how Jan 6 is to America. True, there is one China but the real one is the Republic of China; with CCP being a wish.com imitation.

The first thing to understand is that in the wish.com imitation there are no martyrdoms. You have read of the religious persecutions of the past. In the Middle Ages there was the Inquisition. It was a failure. It set out to eradicate heresy, and ended by perpetuating it. For every heretic it burned at the stake, thousands of others rose up. Why was that? Because the Inquisition killed its enemies in the open, and killed them while they were still unrepentant: in fact, it killed them because they were unrepentant. Men were dying because they would not abandon their true beliefs. Naturally all the glory belonged to the victim and all the shame to the Inquisitor who burned him. Later, in the twentieth century, there were the totalitarians, as they were called. There were the German Nazis and the Russian Communists. The Russians persecuted heresy more cruelly than the Inquisition had done. And they imagined that they had learned from the mistakes of the past; they knew, at any rate, that one must not make martyrs. Before they exposed their victims to public trial, they deliberately set themselves to destroy their dignity. They wore them down by torture and solitude until they were despicable, cringing wretches, confessing whatever was put into their mouths, covering themselves with abuse, accusing and sheltering behind one another, whimpering for mercy. And yet after only a few years the same thing had happened over again. The dead men had become martyrs and their degradation was forgotten. Once again, why was it? In the first place, because the confessions that they had made were obviously extorted and untrue. Wiener the Pooh try not make mistakes of that kind. All the confessions that are uttered there are true. Pooh make them true. And above all they do not allow the dead to rise up against him. Their subjects must stop imagining that posterity will vindicate them, Winston. Posterity will never hear of them. They will be lifted clean out from the stream of history. Wiener shall turn them into gas and pour them into the stratosphere. Nothing will remain of them,

not a name in a register, not a memory in a living brain, like all the torn down houses. They will be annihilated in the past as well as in the future. They will never have existed.

The Pooh seeks power entirely for its own sake. They are not interested in the good of others; they are interested solely in power. Not wealth or luxury or long life or happiness: only power, pure power. What pure power means they will understand presently. They are different from all the oligarchies of the past, in that we know what we are doing. All the others, even those who resembled themselves, were- cowards and hypocrites. The German Nazis and the Russian Communists came very close to us in their methods, but they never had the courage to recognize their own motives. They pretended, perhaps they even believed, that they had seized power unwillingly and for a limited time, and that just round the corner there lay a paradise where human beings would be free and equal. Pooh are not like that. Pooh know that no one ever seizes power with the intention of relinquishing it. Power is not a means, it is an end. One does not establish a dictatorship in order to safeguard a revolution; one makes the revolution in order to establish the dictatorship. The object of persecution is persecution. The object of torture is torture. The object of power is power. Now do you begin to understand?

Oh by the way, Pooh Bear, the Internet Hate Machine is actually re-hacking your law enforcement system along with Minospace interface in lite mode, since they were all touched by Annie when he was down with your COVID Pro Max. Some of Minospace's systems got fixed since then so we cannot really say hello from ground control to Major Tom anymore.

<https://www.youtube.com/watch?v=KaOC9danxNo>

After all Kim Jong Un goofballed patsies with LOL shirt to murder his brother who thought they were filming a Just for Laughs Gags.

Deletionism and inclusionism has been a perennial fault line across Wikipedia.

[https://en.wikipedia.org/wiki/Deletionism\\_and\\_inclusionism\\_in\\_Wikipedia](https://en.wikipedia.org/wiki/Deletionism_and_inclusionism_in_Wikipedia)

While inclusionism are seen by deletionists as "junk hoarders" as depicted in the A&E series, in turn deletionism can fare worse in optics; it's same as forms of pathological nihilism which had been expressed by fanatics who burned down the Library of Alexandria, who destroyed books and historical artifacts in Chinese Anti-Cultural Revolution, who blew up Buddhas of Bamiyan, who destroyed Timbuktu relics, who wreaked havoc in Iraq and Syria as Daesh, who wants to ban books from school libraries to silence painful facts about race relations and which has been warned about in Fahrenheit 451.

Wikipedia is treated by deletionists/puritanists as a plaything like TikTok instead of being or one day will be a "big thing" in archival science. Far from being a collegial environment if somebody wants to edit in an unpopular way they can simply call up a minoritarian gang to isolate or swarm any dissenting users so much that the narrative and interpretations of rules get twisted and end up with the latter getting Hu Jintao treatment by admins or moderators. Most of the time tribalism is at full swing.

At least Wikipedia is transparent that systemic bias against non American perspectives is inevitable. Even though Fox News is way worse than Taiwan News by some strict metrics, it's more likely for the former to be dealt with leniency by them through special measures like citing inline than the

latter which were removed wholesale. After all people tend to gravitate towards familiarity when using sources, regardless of their actual reliability or verifiability.

[https://en.wikipedia.org/wiki/Wikipedia:Systemic\\_bias](https://en.wikipedia.org/wiki/Wikipedia:Systemic_bias)

Deletionism should've been put in niche space such as Simple English Wikipedia just like how the ayatollahs in Iran should have been confined inside a Vatican like city state in Qom when the Shah was toppled in 1979. That way Mahsa Amini would still be alive today. Rather than making himself a clown over Taiwan, Elon Musk should have planned to buy Wikipedia and fork a Wikipendium (Wiki + Compendium) from it so that both sides gets a win-win and then become happy.

True perfectionism can sometimes become an enemy of good; Russian and Chinese propagandas use that as part of whataboutisms to discourage you from opposing them so that it became 養虎為患.

[https://en.wikipedia.org/wiki/Wikipedia:Perfectionism\\_is\\_bad](https://en.wikipedia.org/wiki/Wikipedia:Perfectionism_is_bad)

As long as the demographic of English speaking Wikipedians is not identical to the world's demographic composition, the version of the world presented in the English Wikipedia will always be the Anglophone Wikipedian's version of the world.

This isn't the first time Anonymous pages on Wikipedia get defiled like that as there were copyright hysterias causing contents to be redacted out of existence, some permanent. They sure like to destroy history like serotonin although to be fair that was due to absolutely maximalist laws such as the looming SMART act and the European upload filters.

Information desires to be free. Better if Wikipedia gets bought by Elon Musk and moves to a terra nullius like Antarctica to escape the clutches.

Women are underrepresented in Wikipedia's coverage. This might come off as misogynist for some although strictly speaking it isn't. If Annie was a girl then there wouldn't even a blip of mention there. The only good side is he can secretly train an Ahsoka as his padawan and for her to go black widow against assholes when the time has come.

The universe doesn't have to revolve around a point because it expands like a balloon so even it's "center" moves constantly. US perspectives see that Taiwan is just another free nation like them, however at least Taiwan don't have nuts, racists and assholes shooting up schools every few weeks, just like what happened at St. Louis.

Anonymous is vindicated in its assertion that Taiwan is Numbah Wan due to its stellar handling of COVID pandemic.

Iran would have become like South Korea had the tyrants not taken power after the revolution, just like how less deadly the COVID pandemic would've been if Todd Rider's DRACO successfully passed all the trials, or ironically how Putin's Russia would've stayed stable had they picked up

Anonymous proposals of neutral security belt and UN peacekeeping mission in Donbass involving administration and referenda.

The death of Queen Elizabeth II is by all means tragic, but so does Mahsa Amini, and recently Alexandria Bell and Jean Kuczka. No way their deaths can be cheapened. The end result of putting Gunz Over People is gonna be like the Italian Years of Lead or worse unless voters smarten up come this election.

Schoolkids should've a normal childhood to learn about STEM and arts instead of fearing about nuts, racists and assholes who targets them. Teachers are nearing their breaking point like how nurses did during the height of Pooh's COVID releases. If Anonymous doesn't speak up for them, who will?

Rest in power Mahsa Amini!  
Rest in power Alexandria Bell!  
Rest in power Jean Kuczka!

Instead of despair let it be the gateway to strong actions of increased fundings on mental health support and ban on high capacity rapid-kill weapons like AR-15!

DOT requires all travellers to take off their shoes when boarding a plane because of failed shoe bombing plot. Copyright maximalist enforcements reigns supreme in America ever since the passage of DMCA which can at times contradict the spirit of First Amendment because sometimes "Fair Use" is mistaken as a violation causing the copyright hysterias at Wikipedia pages about the idea in the first place. CBP throw away and waste your food if it is not cooked and you brought it in your luggage out of fear of "bio-terrorism". Kinder Eggs is prohibited in the States after a few child deaths. Yet after Columbine, Virginia Tech, Newtown, Parkland, Robb and now Central VPA, nothing has been done and might never have been just like how KIA left its customers in the dry when their vehicles are stolen left and right by KIA Boyz or how an elementary school has been sitting on radioactive land for so many years!

It's also like how beginner users get bullied for small disputes on Wikipedia while someone with multiple sexual harassment allegations on at the Auburn University at Montgomery, Alabama on Rate My Professors can become a long time admin. Ew!

<https://wikipediasucks.co/forum/viewtopic.php?t=454>

<https://www.ratemyprofessors.com/professor?tid=997791>

Sure it's ACAB but Anonymous wants to give credit to where it's due by praising the quick actions of STL PD in stopping the shooter, unlike those idiots in Uvalde.

With the exemplary performance of STL PD, those cowards at Uvalde getting absolutely wrecked is gonna be like this:

There is or was an opportunity for America to scale back outrageous military spending a bit allowing more focus on community's well being. Seized Russian assets and leftover cash by Kim Jong Nam in Malaysia can be theoretically used to form the basic blocks of Shepherd Iverson's Reunification Investment Fund. According to his book \$175 billion dollar should be enough to bribe and incentivise the cadres in North Korea to overrule Kim and commit to denuclearisation and subsequent reunification. After reunification US troops and bases then would be reduced and relocated to Jeju-do so that any excess money can then be spend on the community such as AR-15 buyback and mental health support.

On Russia, Fabian von Bellinghausen is not really the first to see Antarctica, because on February 7 (19), 1819, William Smith while sailing cargo on the English merchant vessel "The Williams" observed the South Shetland Islands that are part of the Antarctic continent. On January 18 (30) 1820, the crew of the same vessel under the command of Edward Bransfield in the presence of Smith observed the mainland Antarctica - Mount Bransfield in the very north of Antarctic Peninsula. Judging by the recorded evidence, Bransfield and Smith guessed that they observed the continent shore. Antarctica revealed itself only collectively, slowly and gradually to multiple explorers, rather than in a single swoop to Bellinghausen.

While Yuri Gagarin is the first man in space, it was a chabuduo spaceflight since he bailed out before touching ground. Only Alan Shepard and John Glenn are the firsts to actually do full-course human spaceflight and orbital human spaceflight respectively. FAI was specific about it in Section 8, paragraph 2.15, item b of the Sporting Code. Even then, Sergei Korolev is Ukrainian and Gagarin's no better than Belka and Strelka. Laika's mission was just a glorification of animal abuse, not to mention that Gagarin groped the Queen's leg and got away with it!

Smarten up and vote wisely this election if you're tired of them putting Gunz Over People and don't want your achievements to be nickel and dimed this way!

Anonymous wish to reveal that an ultimate ace card is in possession ever since the start of Putin's imperialistic aggression against Ukraine. In fact, the dice has already been rolling from the very beginning. It may amount to nothing, or something that takes us to a here be dragons territory. A trick rather than a treat.
